and Horticultural Advertiser.

Vol. 8.

HUNTSVILLE, ALA., JUNE 15, 1900.

No. 6

TO NURSERYMEN, &c.

THE PRACTICAL NURSERYMAN

—AND—

HORTICULTURAL ADVERTISER.

W. F. HEIKES, - - - Manager.

Issued monthly on the 15th. Sent only to those in the trade. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments. Our circulation covers a list of over 2,600 selected names of customers and correspondents, made up through many years of active wholesale business. Every name represents a buyer of nursery stock, and this list contains only the names of those who buy at wholesale.

Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be received one week before the day of publication. Orders for advertising amounting to less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted.

THE PRACTICAL NURSERYMAN.

The American Association of Nurserymen.

The 25th annual convention of the American Association of Nurserymen was held June 13th and 14th at the Chicago Beach Hotel, Chicago. The weather was cool and pleasant, with sunshine and an invigorating breeze from the lake. The Chicago Beach Hotel has added to its popularity as a meeting place for the Association. The extensive, well-lighted lobby, with its great array of easy chairs, is an ideal place for social intercourse and business tete-a-tetes. The large hall in which the business of the Association was held is all that could be desired in its capacity, its ventilation and freedom from the noises of a great city. The next convention will be held at Niagara Falls, chosen for its close proximity to the Pan-American Exposition, which opens next year in Buffalo. Expressions on the part of many to return to Chicago and the Chicago Beach Hotel, the following year, were frequently heard. It is in Chicago where the best attendance is always assured, as it is the central, neutral point between the East and West. The attendance at this meeting surpassed in numbers all others in the history of the Association. There are 387 members reported in the new Badge Book, and over 250 of these were present. There was a prevailing sentiment of good fellowship, fortified by the feeling arising from successful results in business the past year, with still better prospects ahead for the year to come. There was an unmistakable air of hopefulness and cheerfulness pervading the meeting. The sales through agents were reported as unusually encouraging, and this is usually considered the key to the situation. There is a tendency to slightly higher prices at wholesale, in most leading kinds of stock, and while reports indicate a

reasonable supply of leading articles, the demand is more than equal to it. The present remunerative prices are bringing about a condition which we view with alarm, and that is the disposition of nurserymen to exceed their usual plantings. This if persisted in must bring about a reaction and a return to low prices by the time next year's plantings arrive at a marketable age.

The promised papers were read, and they proved to be unusually interesting and practical. The questions from the Question Box did not seem to be a good lot, as only one concerning the best manner of packing trees for shipment and another desiring to learn which of the Montmorency cherries were the true Large Montmorency and the true Montmorency Ordinaire. There is much confusion concerning these varieties, which was not well cleared up in the discussion that followed. The true Montmorency Ordinaire that some are propagating is not the Montmorency Ordinaire that is wanted. There is a Montmorency, which has been well tested and has proven to be, probably, the most valuable of all the varieties of sour cherries now propagated, which we have been growing for many years as Large Montmorency and known to be identical with the superior one of the two varieties grown as Montmorency Ordinaire. There is another variety of Montmorency, a little later in ripening than Large Montmorency, which is almost as good.

The following officers of the Association were elected for the ensuing year: President, Theodore J. Smith, Geneva, N. Y.; Vice-President, N. W. Hale, Knoxville, Tenn.; Secretary, Geo. C. Seagar, Rochester, N. Y.; Treasurer, C. L. Yates, Rochester, N. Y.

D. C., May 29, 1900.—“Your peaches in my orchard show up well. All so far as bearing are true to name and no mixing of varieties as other lots received.”

The Huntsville Wholesale Nurseries.

JESSIE S. MOSS, PROPRIETOR.

W. F. HEIKES, MANAGER.

HEIKES HUNTSVILLE TREES.

Distributing Points.

We are making St. Louis, Mo., Rochester, N. Y., and Philadelphia, Pa., distributing points; and will deliver free of freight charges to transportation companies, at either of these places, all orders in car lots, or in less than car lots, to be shipped from Huntsville on the dates named below. Drayage or transfer charges at these points to be paid by the purchaser.

FOR ST. LOUIS.—Early shipments from September 20th to October 10th; late shipments from October 25th to December 10th, and in Spring.

FOR PHILADELPHIA AND ROCHESTER.—November 1st and in Spring.

The orders will be packed in Huntsville, and those for less than car lots will be combined to make up car lots and shipped to these points and distributed promptly to the various railroads centering there. This plan insures quick time and low freight rates. Orders for less than car lots must be boxed at Huntsville. The price of boxes will be additional.

This offer to deliver to distributing points free of freight charges will not apply to less than car-lot orders, if shipment is required at other than the above named dates; but we will ship car-lot orders at any time after September 20th anywhere desired within the territory tributary to the cities designated, and will deduct from the bill the cost of freight to the nearest distributing point.

Freight Rebates.

We will deduct from bills 30 cents per 100 lbs. our weight, toward the freight charges on all orders shipped direct from Huntsville to destination. Should there be any material difference between our weights and the railroad weights we should be advised. There will be no drayage nor transfer charges at Huntsville.

Inspector's Certificate.

This is the nurseryman's paradise. There are no injurious insects on nursery stock,—no slugs on pears, no aphids on cherries, plums, nor peaches no San Jose Scale, Root Knot, nor Root Gall on anything. There are some borers in peach roots, but everybody knows how to get them. We have inspector's certificate showing our nurseries to be free from San Jose Scale and other pernicious insects.

For 100 rates add 1 cent each; for 10 rates add 2½ cents each to the 100 rates.

PEACH TREES--On Peach, Leading Varieties.

Our Peach trees are budded on seedlings grown from Tennessee and Alabama Pits. They are free from aphid or root-knots, and have fewer borers than those from many other nurseries. The San Jose Scale, Yellows and Rosette are unknown in this region, and we have been careful not to bring in any buds from affected localities.

Orange Reas Champion Meech

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment to responsible,

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us and without our orders for their disposition.

SPHAGNUM MOSS.

I am absolutely the only dealer in this vicinity who owns the swamp from which the moss is taken, and I personally superintend getting out the moss for my customers. I can therefore guarantee my moss to be of the very best quality and the bales to be of the largest size. Moss can be supplied in any quantity desired either in bulk, wired bales, or baled in burlap. Be sure to get my prices before placing your orders elsewhere.
